

I-12

Industrial Oil

DESCRIPTION

The conventional oil produced for lubrication of spindle bearings, high speed light-duty sleeve bearings and spindles in various kinds of industrial equipment. It is also used as a power fluid in outdoor and indoor hydrostatic drives, piston-ammonia compressors and other equipment. The product may be used as base oil for finished lubricants production, antifriction and conservation greases, as well as emulsifying fluid and other lubricants and technical fluids. GOST 17479.4-87 meets the requirements of I-LG-A-15 standard.

BENEFITS

- Reduces friction and wear, transfers heat away from wearing parts
- Protects against contamination and corrosion

SPECIFICATIONS AND APPROVALS

GOST 17479.4-87; complies with I-LG-A-15.

TYPICAL PROPERTIES

Viscosity, cSt @ 40°C	20.3
Flash Point, COC, °C	202
Pour Point, °C	-27
Acid Number, mg KOH/g	0.01
Sulphated Ash, %	0.005
Density, g/cm ³ @ 15°C	0.869
Color	1.0
