

G-Energy F Synth EC 5W-30

Secured fuel economy

Product description

G-Energy F Synth EC 5W-30 – last generation synthetic motor oil, meeting the latest requirements of automakers. Thanks to the synthetic basis the oil possesses safety and stability margin. It is suitable for application at low temperatures. It is intended for the cars with carburetor and diesel engines, mini-vans and off-road cars where oil with energy-efficient properties is required.

Benefits

- Provides high fuel efficiency due to use of modern friction modifying agents
- High detergency ensures constant cleanliness of the engine components
- Ensures reliable lubrication of friction couples during long work at maximum speed and load
- High thermal stability provides reliable work of the engine in heavy duty conditions and extended oil replacement intervals
- Promotes long-term and effective work of catalyser
- Meets modern requirements of leading world auto manufacturers concerning the oil consumption, energy-efficient properties and volatility

Application

- for the latest Ford engines
- in the engines of other manufacturers requiring ACEA A5/B5 quality level and SAE 5W-30

Specifications and approvals

- ACEA A5/B5
- Ford WSS -M2C913- C/D
- Renault RN0700

Physical and chemical characteristics

<i>Kinematic Viscosity</i>		
cSt @ 40 °C	ASTM D 445	52,9
cSt @ 100 °C	ASTM D 445	9,8
Viscosity index	ASTM D 2270	174
Total Base Number, mg KOH/g	ASTM D 2896	10
Flash point, °C	ASTM D 92	228
Pour point, °C	ASTM D 97	-39
Density at 15 °C, kg/m ³	ASTM D 1298	849

Manufacturer: Gazpromneft Lubricants Italia S.p.A. Via Bitritto, km 7.800 - 70124 Bari - Italy.

Health and safety

Subject to OH&S rules and proper use in the recommended domains, the oil poses no threat to the health and the environment. Avoid skin contact. When changing the oil, use protective gloves/mittens. Upon skin contact immediately wash off the oil with soap and water. For more information on this subject please refer to the product safety data sheet.

Environmental protection

Waste oil and residual products must be at all times collected in a sealed container and handed to waste oil acceptance stations. Do not pour waste oil into drains, soil or water.
