

Gazpromneft MG-68V

Hydraulic oil

DESCRIPTION

The product is designed for use in hydraulic systems and transmissions of tractors and other agricultural machinery working under pressure of not more than 25mPa. Formulated with mineral base oils and efficient additive system, it improves anti-oxidation, anti-wear, depressing and antifoaming properties.

BENEFITS

- Full compatibility with materials used in hydraulic drives
- Good water and air separation ensures trouble-free performance under severe weather operating conditions
- Stable viscosity in a wide operating temperature range
