G-Energy Expert L oils are high performance engine lubricants designed to provide long engine life and exceptional protection against sludge and wear. G-Energy Expert L are formulated with the use of synthetic technology and advanced additive system to provide improved performance level under a variety of driving conditions.

Applications

- Turbo-charged and direct injection engines
- Gasoline and diesel engines without diesel particulate filters (DPF) requiring oil with ACEA A3/B4 or API SL/CF standards
- Passenger cars, light trucks and vans

	Features	Advantages and Potential Benefits
	Active cleaning agents	Improved piston cleanliness prevents ring sticking and sludge formation
	Improved thermal and oxidation stability	Helps to resist oil aging allowing extended drain interval protection
	Stay-in-grade	Keeps its protective oil film during the whole drain interval and maintains viscosity grade
	Good low temperature performance	Oil flows more quickly and circulates throughout engine at low temperatures to extend engine life
	Enhanced anti-wear additive system	Outstanding wear protection even under high loads and temperatures for long engine life

Meets the requirements:

- ACEA A3/B4
- API SL/CF
- MB 229.1

Approvals:

- AVTOVAZ
